To whom it may concern:

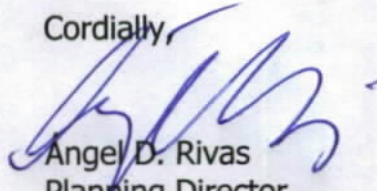

Fusionworks

I confirm that I have dealt with Fusionworks since 2005. During that time, they have provided to Cooperativa de Seguros Múltiples de Puerto Rico (CSM) with excellent support and advisory in areas of IT business intelligence development, data management and business visualization throughout Business Object platform. Their work has been a major factor for gaining new insight and improving the decisions making process of CSM.

Based on my experience, I recognized the Fusionworks' team commitment which is to understand the concerns and needs of their clients, recommend the adequate IT tools, focus on long term win-win relationship and work for successful results.

I confidently recommend Fusionworks as a solid and reliable partner.

Cordially,

Angel D. Rivas
Planning Director
Cooperativa de Seguros Múltiples
